Certified meeting in Germany.

26th International Workshop for Phlebology, Lymphology and Angiology Annual meeting of the International Forum for Minisurgery of Varicose Veins Frankfurt - Germany

As many already know this workshop bears some specialties:

International character – in cooperation with other phlebological societies and the German professional association for lymphology - opinions from many countries are to be heard about, practical topics and courses, semi-live operation course, intimate atmosphere, each participant is also a referent, topic discussions without prepared lectures.

The convention has the form of a large round table talk without a program elaborated in detail. To each topic you can present your proposals or short lectures. The program, as ever before, is just globally outlined; the particular lectures are not listed, so there is still room for some surprise. The lectures are held in English or German language, the beamer presentations are supposed to be shown parallel in both languages. A congress DVD will be released every year, which you get at the congress.

Sincerely,
Z. Várady / Z. Böhm

Main hall

Friday 16.03.2012

courses

11.00 – 11.30	Operation	Minisurgery in practice	Várady
11.30 – 12.30	Sclerotherapy	Specialities at Sklerotherapy	Bihari
